

RONNIE BAILEY

RICHMOND, VA | (360) 719-8377

ronniebailey@live.com | [linkedin.com/in/ronniebailey](https://www.linkedin.com/in/ronniebailey)

Senior Cloud Security Principal Architect with over 10 years of experience specializing in designing, implementing, and managing cloud-based security solutions for a variety of industries.

CORE COMPETENCIES

- **ACCESS MANAGEMENT:**
Access Control / Change Management, Active Directory / GPO Administration, Identity Solutions Design & Implementation, Microsoft Intune, Mobile Device Management (MDM), OAuth, OIDC, SAML, SSO, Onedidentity Safeguard: Privileged Passwords, Password Management, and Total Privileged Access Management (TPAM).
- **CLOUD COMPUTING:**
Amazon Web Services (AWS), Azure, Azure Active Directory / Entra ID, Google Portal, and Hybrid Migration, On-Prem to Cloud.
- **DEVELOPMENT:**
Agile Development, API Management / Apigee, Auth0, PowerShell Scripting, Python, and REST API / JSON / JavaScript.
- **FRAMEWORKS & COMPLIANCE:**
Business Continuity Planning, Data Classification, Disaster Recovery, FISMA, HIPAA, HITRUST, ISO 27001, NIST Frameworks
- **NETWORKING & REMOTE ACCESS:**
Bomgar / BeyondTrust, Cisco Meraki, Citrix Remote Desktop, Fortinet Suite, Ping Identity
- **SECURITY & VULNERABILITY MANAGEMENT:**
Security Information and Event Management, Vulnerability Management
- **SOFTWARE & TOOLS:**
Confluence, CrowdStrike, DevOps, Microsoft 365, QRadar, Rapid7, RSA / MFA, Security Identity Manager (IBM), ServiceNow, Varonis
- **SYSTEM ADMINISTRATION & MANAGEMENT:**
IT Infrastructure Management, IT Service Management, Linux Mainframe Environment, Windows Server Administration
- **OTHER:**
Agile Development, Digital Asset Management, Scrum, Waterfall, etc.

CAREER

SR. PRINCIPAL SECURITY ARCHITECT

D.H.S., U.S. Secret Service

3/2022 - Present

- Orchestrated cloud migration using Azure AD, ensuring secure and efficient transfer of critical systems from on-prem to cloud environments.
- Utilized Agile development and scripting languages (PowerShell, Python) for system resilience and efficiency in accordance to FISMA framework.
- Designed and implemented identity solutions using Active Directory, OAuth, and SAML, emphasizing cloud security.

SR. PRIVILEGE ACCESS MANAGEMENT (PAM), ENGINEER

Lands' End

12/2021 - 12/2022

- Deployed Onedidentity Safeguard for robust privileged password management, integrating it with existing systems for streamlined access control.
- Conducted regular audits and adjustments of privileged access settings, leveraging Onedidentity's analytics to enhance system security.
- Executed strategic change management and policy design for enhanced access control and security.
- Drove Total Privileged Access Management (TPAM) initiatives for robust security frameworks.

INFOSEC ADMINISTRATOR

Accessia Health

7/2021 - 12/2021

- Regularly updated security protocols in alignment with the latest QRadar documentation, ensuring optimal configuration for threat detection.
- Managed vulnerability assessments, remediation strategies, and ensured HIPAA and NIST compliance.
- Conducted system audits and policy enforcement for robust security compliance.

IDENTITY AND ACCESS MANAGEMENT (IAM), PRINCIPAL ENGINEER

Indivior Pharmaceuticals

10/2019 - 7/2021

- Integrated SSO and MFA using Microsoft Azure Active Directory, enhancing user verification processes and access management.
- Designed IAM solutions using Microsoft Intune for efficient mobile device management, ensuring secure and remote access.
- Developed and executed IAM strategies for security enhancement and user experience optimization.
- Investigated threats, managed HBSS policies using Ivanti, and performed compliance scans using Microsoft Intune, Azure AD Services, and Defender.

IDENTITY AND ACCESS MANAGEMENT (IAM), ANALYST

Wells Fargo

4/2019 - 10/2019

- Supported IAM solutions design and maintenance, focusing on access control systems.
- Managed and configured user roles and permissions in Active Directory, utilizing GPOs for enforcing security policies across the network.
- Regularly updated system access controls based on evolving security needs, guided by Microsoft's GPO administration recommendations.

CUSTOMER IDENTITY AND ACCESS MANAGEMENT (CIAM) ENGINEER

Wellsecured IT

10/2015 - 1/2019

- Implemented CIAM solutions focusing on enhancing user experience, utilizing analytics to tailor access management to customer needs.
- Performed implementation, upgrade and testing tasks for systems and network security technologies through utilization of change control methodologies.
- Installed virtual machines (VMWare, VirtualBox, & Hyper-V) to utilize applications in a test environment.

CLOUD SECURITY OPERATIONS

Cloudcentria Security

6/2011 - 12/2015

- Monitored Azure environment using cloud-specific security tools, implementing custom security measures based on vendor guidelines.
- Developed and maintained policies, procedures, and documentation to align with regulatory standards, leading to successful audits and certifications.
- Collaborated cross-functionally with IT, legal, and business teams to design and implement effective risk mitigation strategies.
- Implemented and managed secure remote access solutions, ensuring efficient and safe operations.

SYSTEM ADMINISTRATOR

uBreakiFix

6/2011 - 12/2015

- Provided first-level technical support to end-users via phone, email, or in-person, addressing issues with hardware and software, and network connectivity.
- Troubleshoot hardware and software issues, including diagnosing and repairing computer hardware and software malfunctions.
- Evaluated and prioritized incidents based on impact and urgency, contributing to meeting established service level agreements (SLAs).
- Collaborated with internal departments to ensure IT needs are met, and provided end-user training on basic technology use and best practices.
- Maintained high-level customer satisfaction by delivering professional and timely support, and documenting processes and service desk records meticulously.

KEY PROJECTS

- **Fortune 500 CIAM Solution Implementation:** Led a team of engineers in the design and implementation of a new CIAM solution for a major corporate client used by over 100,000 employees.
- **Healthcare PAM Compliance:** Developed a custom PAM solution for a healthcare organization that met the strict requirements of HIPAA compliance helping the organization to improve its security posture and reduce the risk of data breaches.
- **Cloud Migration for Financial Services:** Directed cloud migration and IAM integration for a financial services firm based on Azure AD.

EDUCATION

- Bachelor of Science in Cybersecurity, University of Richmond (Expected 2024)
- Associate of Applied Science in Information Systems, Reynolds College (2020)

CERTIFICATIONS

- AZ-900: Microsoft Azure Fundamentals (In progress)
- Cybersecurity Essentials, Cisco Networking Academy
- Network Administration, Reynolds College

AWARDS AND HONORS

- Phi Theta Kappa Honor Society, international honor society
- President's List, Reynolds College
